**MARINA ADVISORY NO. 2022-53**

**TO** ALL DOMESTIC SHIPPING COMPANIES/OPERATORS/CHARTERERS  
AND ALL CONCERNED

**SUBJECT :** CONDUCT OF MANDATORY INSULATION RESISTANCE TEST AND  
SUBMISSION OF TEST RESULTS ON ALL ELECTRICAL  
MACHINERIES AND ELECTRICAL WIRINGS ONBOARD STEEL  
HULLED PASSENGER SHIPS

---

Notice is hereby given pursuant to Presidential Degree No. 474, Sec. 14(e) of E.O. No. 125/125 and Sec. 9, Chapter III of R.A. No. 9295, that all Domestic Shipping Companies/Operators/Charterers and all concerned are hereby directed to ensure that all passenger steel hulled vessels regardless of gross tonnage should undergo the conduct of Insulation Resistance Test on all electrical machineries and electrical wirings during their intermediate and mandatory dry-docking.

This is to ensure that the records of each critical machinery components or circuit should be kept in separate log sheet, so that each fresh reading can be compared with previous values and that the downward trend can be immediately observed and potential fault rectified.

Violations of this Advisory should be reported directly to these email addresses: [oadm@marina.gov.ph](mailto:oadm@marina.gov.ph) and [es@marina.gov.ph](mailto:es@marina.gov.ph)

For strict compliance.

  
Atty. **MERNANI N. FABIA**  
Administrator
