VII. Schedule of Requirements

The delivery schedule expressed as weeks/months stipulates hereafter a delivery date which is the date of delivery to the project site.

Lot Number	Description	Quantity	Total	Delivered, Weeks/Months
1	Passenger Van	7 Units		Within 30 calendar days upon receipt of Notice to Proceed
2	Pick-up	2 Units		Within 30 calendar days upon receipt of Notice to Proceed
3	Multi-Purpose Vehicle	2 Units		Within 30 calendar days upon receipt of Notice to Proceed
4	Sports Utility Vehicle	1 Unit		Within 30 calendar days upon receipt of Notice to Proceed
5	Motorcycle	9 Units		Within 30 calendar days upon receipt of Notice to Proceed

VII. Schedule of Requirements

The delivery schedule expressed as weeks/months stipulates hereafter a delivery date which is the date of delivery to the project site.

Lot Number	Description	Quantity	Total	Delivered, Weeks/Months
1	Passenger Van	7 Units		Within 60-90 calendar days upon receipt of Notice to Proceed
2	Pick-up	2 Units		Within 60-90 calendar days upon receipt of Notice to Proceed
3	Multi-Purpose Vehicle	2 Units		Within 60-90 calendar days upon receipt of Notice to Proceed
4	Sports Utility Vehicle	1 Unit		Within 60-90 calendar days upon receipt of Notice to Proceed
5	Motorcycle	9 Units		Within 60-90 calendar days upon receipt of Notice to Proceed

Clarifications/modifications made herein shall be considered as amending the other parts of the Bidding Documents referring to or relating to the same matter and shall be considered an integral part of the Bidding Documents.

ARSENIO F. LINGAD II

Chairperson

MARINA Bids and Awards Committee

October 14, 2022

Bids and Awards Committee
Maritime Industry Authority
Marina Building, Bonifacio Drive cor.,
20th Street, Port Area, Manila, Philippines

Attention: Mr. Arsenio F. Lingad II
BAC Chairperson

Dear Mr. Lingad,

Greetings from Nissan Commonwealth, Inc.

This to formally inform you that we intend to participate in the **PROCUREMENT OF BRAND NEW SEVEN (7) PASSENGER VANS, TWO (2) PICKUP, TWO (2) MULTI-PURPOSE UTILITY VEHICLES, ONE (1) SPORTS UTILITY VEHICLE AND NINE (9) MOTORCYCLES. FOR LOT 3**

In this regard, we would like to take this opportunity to raise some request for considerations regarding the Technical Specification requirement of this project so we can participate in this bidding project:

Description	Request
1. <u>Transmission:</u> 6-speed Automatic	We are requesting to the BAC to consider to have a range from 6 speed automatic to at least 4 speed automatic transmission . Make it more maintenance efficient and produces more torque because of its gear ratios.
2. <u>Engine Displacement:</u> 1800 cc for gasoline or 2800 cc for diesel; or AFV	We are requesting to the BAC and End-user to consider at least minimum of 1,478cc for gasoline engine . Because our unit offered is lightweight compared to another brand making it more fuel efficient but comes with power.
3. <u>Fuel Type:</u> Diesel	We are requesting to consider the fuel type of Gasoline or Manufacturer's Standard . Because it is in the description number 2 the requirement is either gasoline or diesel.
4. <u>Tires and Wheels:</u> All Alloy Wheels Wheel Size: 215/7	We are requesting to the BAC to at least minimum the wheel size to 205/55R16 or to make it to Manufacturer's Standard . In the requirement there is a typo error for the wheel size.

5. **Delivery Leadtime: 30 Calendar Days**

Due to Global issue of the micro chips used in cars from China. We are requesting to the BAC to consider **at least 60 – 90 Calendar days.**

Nissan Brand is at far when it comes with the quality of the vehicle. It has been in the industry for more than Twenty (20) Years and competitive with another commercial brand. We are hoping that the BAC will consider our request for consideration.

Thank you and we look forward to a mutually beneficial business relationship with **Maritime Industry Authority** now and in the future.

Respectfully yours,

Sherill C. Merdegia
Fleet Sales Manager

BAC Chairperson

Dear Mr. Lingad,

Greetings from Nissan Commonwealth, Inc.

This to formally inform you that we intend to participate in the **PROCUREMENT OF BRAND NEW SEVEN (7) PASSENGER VANS, TWO (2) PICKUP, TWO (2) MULTI-PURPOSE UTILITY VEHICLES, ONE (1) SPORTS UTILITY VEHICLE AND NINE (9) MOTORCYCLES. FOR LOT 1**

In this regard, we would like to take this opportunity to raise some request for considerations regarding the Technical Specification requirement of this project so we can participate in this bidding project:

Description	Request
1. <u>Engine Displacement:</u> 2500 cc for gasoline or 3000 cc for diesel; or AFV	We are requesting to the BAC and End-user to consider at least minimum of 2,488cc for diesel engine . The requirement of 3000 cc is only fit to China brands.
2. <u>Tires and Wheels:</u> All Alloy Wheels Wheel Size: 215/7	We are requesting to the BAC to at least minimum the tires to 195/70R15c or to make it to Manufacturer's Standard . Because this is a van, having a smaller tire will be more stable on the road specifically if the vehicle is in full load/capacity.
3. <u>Audio System:</u> With Display Audio capable of connectivity via Aux/USB/BT, T-link (for apple and android) and with at least 4 speakers	We are requesting to the BAC from alloy wheel to at least consider the Steel Rim with Hub Caps or Manufacturer's Standard . Steel Rims are known for its durability. Because it is more reliable and durable when it comes to higher load capacity. Request to make it to manufacturer's standard . The one in the requirement are for top variants. If we will comply with the requirement the budget will be short for the units. Our unit being offered are equipped with 2 din single in dash cd/tuner/aux w/ 2 speakers

<p>4. <u>Inclusion: Mag Wheels</u></p> <p>5. <u>Delivery Leadtime: 30 Calendar Days</u></p>	<p>We are requesting to the BAC from alloy wheel to at least consider the Steel Rim with Hub Caps or Manufacturer's Standard. The one in the requirement are for top variants. If we will comply with the requirement the budget will be short for the project.</p> <p>Due to Global issue of the micro chips used in cars from China.
